

## **Harness Height Adjustment Instructions**

1. Standing on the side of the stroller you want to adjust, put hand up the back of the seat.
2. Once you have your hand in the back of the seat, thread buckle through insertion slit, to the front.
3. Adjust the harness to your needs.
4. Rethread buckle through the most suitable insertion slit for you child.
5. Once buckle is through, turn it with the hand in the seat back, so it is secure.
